# INTERESTING FACTS

The **halibut** is a predatory fish that preys on other fish at a young age. It likes to feed on redfish and cod, but many of the fish that live near the bottom of the water are also on the menu. The taste of halibut is relatively mild, yet refreshingly peculiar. The meat has a firm structure and tastes very juicy.

The classic **teriyaki sauce** is prepared by mixing soy sauce, sake and sugar in equal parts and reducing it over low heat to about half its original volume. The low heat is aimed at so that, on the one hand, the alcohol from the sake does not evaporate completely (this should only happen during frying or grilling) and, on the other hand, the sugar does not caramelize.

# CHILDREN'S ON SUNDAY

Dear children,

There will be **no childcare** today. Vivien will be back for you on Monday!

However, you can borrow sledges in the garage and games at reception or go with your friends to the playrooms.

**Board games are available at the reception!**

You are also welcome to visit our animals in the small animal stable - they look forward to a few strokes.

We wish you an exciting day!
